Total **1,477 PRODUCTS** registered

BIZ CONSULTING

31 INTERNATIONAL EXHIBITORS were matched

with **16 LOCAL BUYERS** and total of

63 ONLINE & ONSITE MEETINGS took place for 4 days

HYBRID PACKAGE

Seoul Food & Hotel introduced the brand new hybrid package this year allow the exhibitors to meet & match with the buyers at both the physical event & the online platform.

Our dedicated hybrid stand enabled the exhibitors to operate the stand remotely and helped them to connect with the local buyers at the physical event.

"I think this year's hybrid package was an appropriate proposal for the situation. I look forward to meeting various customized packages in the future."

Francesca Kim

Italian Trade Commission

WHAT EXHIBITORS SAID

"It has been a fantastic opportunity to physically promote products from the country where I am based, as it was extremely difficult to introduce new items and companies with COVID negatively influencing the field of international trade."

Gwen Park

Export Partner, Netherlands pavilion organiser

"Seoul Food & Hotel is the best exhibition in Korea as a large-scale international food exhibition. I hope it will continue to be a channel for introducing various countries and products."

Sun Young Yoo

Agricultural Trade Office, U.S. Embassy Seoul

"In particular, this year was a very inspiring and satisfying experience in that many visitors showed great interest in the Austria pavilion despite the restrictions by the pandemic situation. I look forward to continuing to show Austrian healthy and delicious food to Korean consumers through Seoul Food & Hotel."

Sun-Ho Park

Austrian Embassy Commercial Section

WHAT VISITORS SAID

More international companies participated than expected, even in difficult circumstances due to COVID 19.

Everyone completely followed the preventive measures so that we could enjoy the clean and safe show.

Seoul Food & Hotel proved that physical event is more realistic and lively than online meetings.

I was satisfied that a separate tasting zone was also available.

It was good to be able to discover new products and understand consumer behavior.
